11<sup>th</sup> January 2017

Dear Michael,

I would like to take this opportunity to thank you for all the quality work that you have done not just for me, but for my clients when I have recommended your services.

Your attention to detail from your first visit to site to your follow up sketch/plan and quotation, to your finished project has never disappointed. Your ponds give a new dimension to any garden and always prove to be an interesting talking point when friends come to visit.

I would have no hesitation to continue to recommending your services.

Many thanks

Tony Smith
