Michael Wheat
Pond Landscaping & Garden Design

Dear Michael

For many years you have carried out various planting jobs for me at my office and also at my home.

Now that the plants have matured I can see that a lot of thought has gone into the layout and we have good ground coverage together with colour at different times of the year.

I can certainly see that you are a professional in your line of work & would have no hesitation in recommending you.

Kind Regards

Mike Waterfield
